SHIPOWNER

A modern company with history and tradition.

About Us

Reseaworld (RSW) is an Italian Family-Owned Company born after a long maritime tradition, specialised in the trade of petroleum products for the maritime industry.

RSW builds its future based on the experience handed down through generations and is committed to maintain the professionalism and skills developed over the years, putting them at the service of its clients.

Thanks to consolidated relationships and proven expertise of our management with over 35 years of activity, a young and dynamic team deals with the main Shipping Operators, providing customers with quick and qualified assistance, giving them support for any requirement they might have.

Reseaworld's mission is to aim for excellence, offering the best services in partnership with the best Physical Suppliers around the world and guaranteeing quality products at the most competitive market prices. RSW looks to the future by actively participating in green initiatives aimed at protecting the environment and contributing to the development of a sustainable ecosystem.

The Company's registered office is located in Rome (Italy), the operational headquarters in Torre del Greco (Naples, Italy), and has a strategic Branch Office in Greece. Key maritime hubs that enable RSW to effectively serve the Shipping industry throughout the Mediterranean ensuring global coverage.

Bunker Fuel

Reseaworld provides high quality products that meet the latest ISO standards, ensuring consistent reliability and excellence with its services. Our team has extensive expertise in the bunkering industry and in-depth knowledge of international regulations, specific expertise on fuel quality, assuring our clients that all supplies meet stringent safety and compliance requirements.

Our team in Italy and Greece is highly specialised in serving all ports in the Mediterranean, Northern Europe, ARA Range, Baltic and Black Sea, expanding their know-how and service globally.

Thanks to the strong and strategic partnerships with a well-established network of Physical Suppliers, RSW guarantees reliable and cost-effective supplies. We further provide real-time updates for every single bunkering operation, ensuring transparency and efficiency to all our customers.

Lubricants

Reseaworld is trading lubricants from all Majors Oil Companies, offering a full range of high-quality products designed to meet the high standards requirements of marine operations.

RSW is able to offer its services and supply 24/7, ensuring impeccable and dedicated service wherever our Customers operate. Through strategic partnerships with leading Physical Suppliers, we operate on approximately 92% of global ports while, for the remaining locations, our presence it's also confirmed thanks to consolidated links with trusted local brands and distributors, carefully vetted and approved.

RESEAWORLD
MARINE FUEL AND OIL

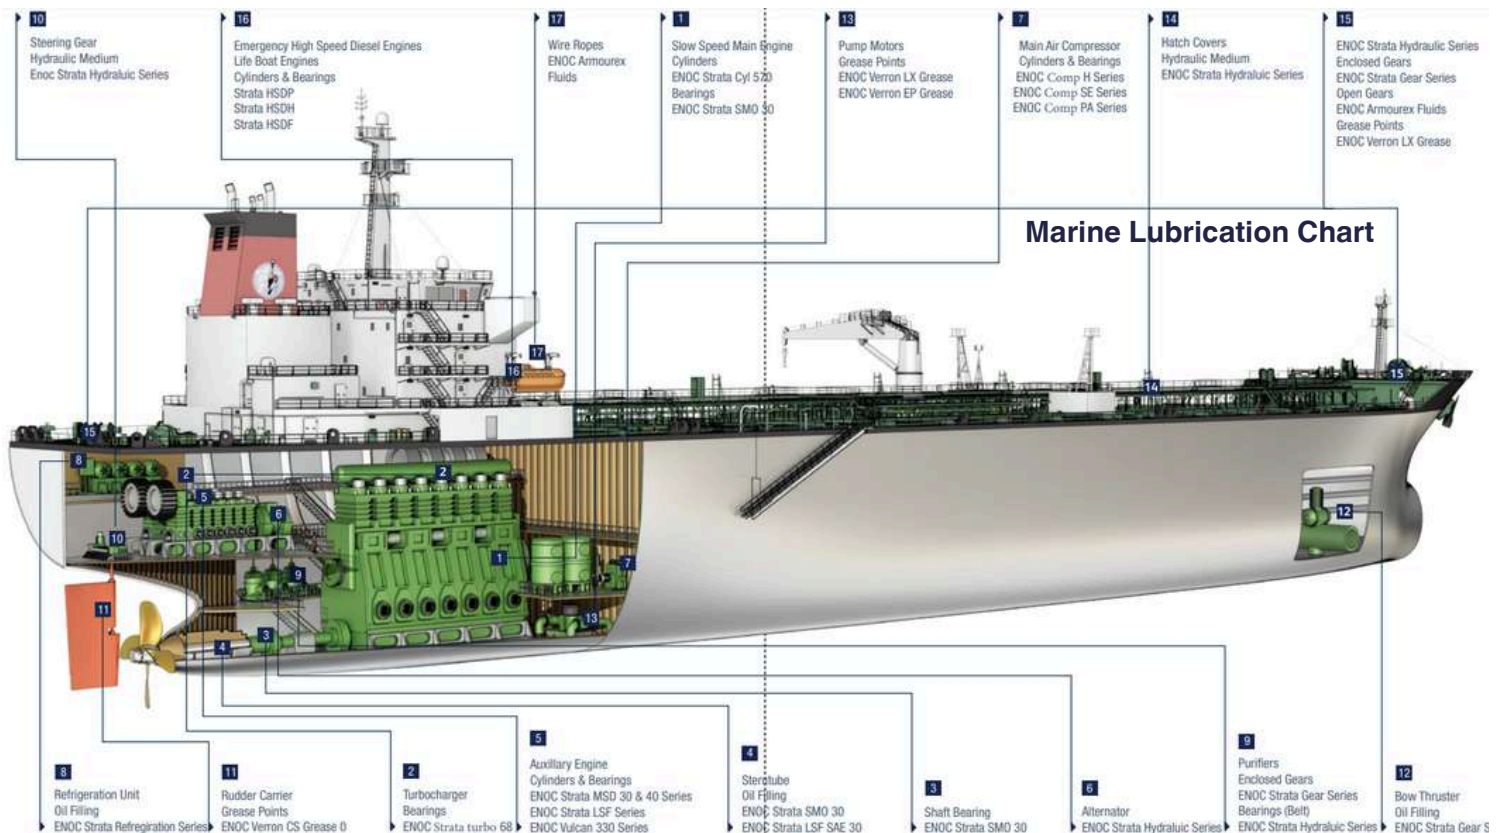

ENOC exclusive distributor

Starting from 2024, Reseaworld is the exclusive distributor for ENOC's lubricant products in Netherlands, Belgium, France, Switzerland, Monaco, and Italy.

ENOC products offer several key advantages, including high-quality lubricants designed to enhance engine performance and efficiency, advanced technology for specific maritime applications and a global distribution network ensuring reliable and timely supply.

ENOC lubricants are blended at ISO 9002 certified plants, under a strict quality control process. Their philosophy is to maintain the highest quality standards from manufacturing to packaging and distribution. Enoc lubricants are OEM approved by major engine manufactures and secondary equipment.

Chemicals for SCR systems

Reseaworld also trades specialised chemical products, with a primary focus on the high-quality Marine Urea, specifically the AUS-32 and AUS-40, which are used in the Selective Catalytic Reduction (SCR) systems, designed to reduce Nitrogen Oxide (NOx) emissions and ensure compliance with environmental standards.

Diesel Exhaust Fluids (DEF), AUS-32 or AUS-40 plays a pivotal role in reducing harmful emissions from marine engines helping the Shipping sector to meet the new and more stringent regulations on the subject.

Affiliations and Certifications

Reseworld is a member of the **International Bunker Industry Association (IBIA)**. IBIA is the voice of the global bunker industry and represents all stakeholders throughout the industry value chain. Valeria Sessa, CEO Reseworld, has been an elected member of the Global Board of Directors since 2022.

Reseworld is member of **Assarmatori**, an association that promotes the maritime sector by providing assistance on technical and economic issues. It creates conditions for more efficient and safer services, with support for investment, developing new technologies and work for increasingly green shipping.

Reseworld is a member of **Confitarma**, which promotes the maritime sector and assists on regulatory, economic, fiscal and social issues particularly in the areas of development, environment and energy, infrastructure and logistics, tourism, business culture, labor market and training.

To ensure transparency and reliability, for the three-year period 2021-2023 RSW has been audited by PWC affirming our commitment to the highest standards of integrity. For the three-year period 2024-2026 RSW will be audited by Deloitte strengthening our reputation for stability.

Reseworld is **ISO 9001:2015** certified by IQNet and adheres to a rigorous Quality Management System.

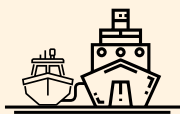

With a constant focus on environmental responsibility, RSW is continuously committed to minimising our ecological footprint, promoting long-term growth and resilience in the maritime industry, while remaining committed to delivering excellence and reliability.

Building connections, delivering success.

Let's fuel your success together!
